Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Mr. Wakeman submitted a proposed amendment (attached in file) to obviate the rejections under 35 USC 112. The proposed changes were discussed and general agreements were reached as to how to obviate these rejections including adding the necessary structural relationships between the claimed elements; for example, by reciting that the claimed lock means are "operably coupled" to the claimed sensor means in claim 1. Further, it was proposed to add new claims 33-52. Mr. Dexter stated that further consideration of method claims 51 and 52 would be required as to whether they are drawn to a patentably distinct invention and can be considered in the present application.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
